HUMAN FACTORS, 1997, 39(4), 672–680

INDEX TO HUMAN FACTORS—VOLUME 39

TABLE OF CONTENTS

Policy Improvements for Prevention of Alcohol Misuse by Airline Pilots, *Kathleen L. McFadden* 1
Methodological and Analytical Concerns on the Pilot Selection Research of Park and Lee (1992), *Diane L. Damos and Jefferson M. Koonce* 9
Vigilance and Signal Detection Theory: An Empirical Evaluation of Five Measures of Response Bias, *Judi E. See, Joel S. Warm, William N. Dember, and Steven R. Howe* 14
Combining Time and Intensity Effects in Assessing Operator Information-Processing Load, *Keith C. Hendy, Jianqiao Liao, and Paul Milgram* 30
The Perception of Flicker on Raster-Scanned Displays, *W. David Thomson and John Saunders* 48
Models of Shiftwork and Health: An Examination of the Influence of Stress on Shiftwork Theory, *Emma Taylor, Rob B. Briner, and Simon Folkard* 67
Minimizing Fatigue during Repetitive Jobs: Optimal Work-Rest Schedules, *David D. Wood, Donald L. Fisher, and Robert O. Andres* 83
Performance during Positive Pressure Breathing after Rapid Decompression Up to 72 000 Feet, *Ann Elise Lindeis, W. D. Fraser, and Barry Fowler* 102
The Retention of Balance: An Exploratory Study into the Limits of Acceleration the Human Body Can Withstand without Losing Equilibrium, *Bernd de Graaf and Willem van Weperen* 111
Practical Operation of a Biaxial Goniometer at the Wrist Joint, *Bryan Buchholtz and Helen Wellman* 119
Activation Force and Travel Effects on Overexertion in Repetitive Key Tapping, *Robert G. Radwin and One-Jang Jeng* 130
Toward a Quantitative Definition of Manual Lifting Postures, *Robin Burgess-Limerick and Bruce Abernethy* 141
An Empirical Examination of Metacognitive Models of Situation Assessment, *Pat-Anthony Federico* 149
Intelligent Transportation Systems: Special Section Preface, *Deborah A. Mitta and Michael J. Kelly* 161
Driver Acceptance of Unreliable Traffic Information in Familiar and Unfamiliar Settings, *Barry H. Kantowitz, Richard J. Hanowski, and Susan C. Kantowitz* 164
Effects of Age, System Experience, and Navigation Technique on Driving with an Advanced Traveler Information System, *Thomas A. Dingus, Melissa C. Hulse, Michael A. Mollenhauer, Rebecca N. Fleischman, Daniel V. McGehee, and Natarajan Manakkal* 177
Effect of Selected In-Vehicle Route Guidance Systems on Driver Reaction Times, *Raghavan Srinivasan and Paul P. Jovanis* 200
Human Factors Field Evaluation of Automotive Headway Maintenance/Collision Warning Devices, *Thomas A. Dingus, Daniel V. McGehee, Natarajan Manakkal, Steven K. Jahns, Cher Carney, and Jonathan M. Hankey* 216
Humans and Automation: Use, Misuse, Disuse, Abuse, *Raja Parasuraman and Victor Riley* 230
The Reduction of Uncertainty and Troubleshooting Performance, *Ross C. Teague and John A. Allen* 254
Multiple Factors that Determine Performance with Tables and Graphs, *Joachim Meyer, David Shinar, and David Leiser* 268
The Impact of Signal Bandwidth on Auditory Localization: Implications for the Design of Three-Dimensional Audio Displays, *Robert B. King and Simon R. Oldfield* 287

An Empirical Examination of Metacognitive Models of Situation Assessment, *Pat-Anthony Federico* 149
Intelligent Transportation Systems: Special Section Preface, *Deborah A. Mitta and Michael J. Kelly* 161
Driver Acceptance of Unreliable Traffic Information in Familiar and Unfamiliar Settings, *Barry H. Kantowitz, Richard J. Hanowski, and Susan C. Kantowitz* 164
Effects of Age, System Experience, and Navigation Technique on Driving with an Advanced Traveler Information System, *Thomas A. Dingus, Melissa C. Hulse, Michael A. Mollenhauer, Rebecca N. Fleischman, Daniel V. McGehee, and Natarajan Manakkal* 177
Effect of Selected In-Vehicle Route Guidance Systems on Driver Reaction Times, *Raghavan Srinivasan and Paul P. Jovanis* 200
Human Factors Field Evaluation of Automotive Headway Maintenance/Collision Warning Devices, *Thomas A. Dingus, Daniel V. McGehee, Natarajan Manakkal, Steven K. Jahns, Cher Carney, and Jonathan M. Hankey* 216
Humans and Automation: Use, Misuse, Disuse, Abuse, *Raja Parasuraman and Victor Riley* 230
The Reduction of Uncertainty and Troubleshooting Performance, *Ross C. Teague and John A. Allen* 254
Multiple Factors that Determine Performance with Tables and Graphs, *Joachim Meyer, David Shinar, and David Leiser* 268
The Impact of Signal Bandwidth on Auditory Localization: Implications for the Design of Three-Dimensional Audio Displays, *Robert B. King and Simon R. Oldfield* 287

Crash Reduction with an Advance Brake Warning System: A Digital Simulation, *David Shinar, Eli Rotenberg, and Tal Cohen* 296
Automotive HUDs: The Overlooked Safety Issues, *Daniel R. Tufano* 303
Influence of Lift Moment in Determining MAWL, *Kermit G. Davis, Bryan C. Kirking, Laura L. Gaudes, Jaehwan Yand, and William S. Marras* 312
Heeding the Legacy of Meister, Brunswik, and Gibson: Toward a Broader View of Human Factors Research, *Kim J. Vicente* 323
Toward a Valid View of Human Factors Research: Response to Vicente (1997), *David G. Payne and Jason M. Blackwell* 329
A New Look at an Old Study on Information Display: Washburne (1927) Reconsidered, *Joachim Meyer* 333
Cross-Modal Equivalence of Visual and Auditory Scatterplots for Exploring Bivariate Data Samples, *John H. Flowers, Dion C. Buhman, and Kimberly D. Turnage* 341
Artificial Looming Yields Improved Performance over Lateral Motion: Implications for Stereoscopic Display Techniques, *William C. Schmidt* 352
The Effects of Spatial Frequency on Binocular Fusion: From Elementary to Complex Images, *Corinne Roumes, Justin Plantier, Jean-Pierre Menu, and Simon Thorpe* 359
Visual Accommodation and Virtual Images: Do Attentional Factors Mediate the Interacting Effects of Perceived Distance, Mental Workload, and Stimulus Presentation Modality? *Graham K. Edgar and Christopher A. Reeves* 374
Multiaccommodative Stimuli in VR Systems: Problems and Solutions, *Lynn Marran and Clifton Schor* 382
A Methodology for Optimally Designing Console Panels for Use by a Single Operator, *Tiffany A. Sargent, Michael G. Kay, and Robert G. Sargent* 389
Competition and Performance on a Computer-Based Complex Perceptual-Motor Task, *Stephen Worchel, Wayne L. Shebilske, Jeffrey A. Jordan, and Radmila Prislin* 410
The Effects of Response Format and Other Variables on Comparisons of Digital and Dial Displays, *R. J. Miller and Scott Penningroth* 417
Framing of Task Performance Strategies: Effects on Performance in a Multiattribute Dynamic Decision Making Environment, *Thomas E. Nygren* 425
Aging and Decision Making: Driving-Related Problem Solving, *Neff Walker, W. Bradley Fain, Arthur D. Fisk, and Christy L. McGuire* 438
The Influence of Flooring on Standing Balance among Older Persons, *Mark S. Redfern, Pamela L. Moore, and Christine M. Yarsky* 445
Stability Limits in Extreme Postures: Effects of Load Positioning, Foot Placement, and Strength, *Mary Ann Holbein and Don B. Chaffin* 456
Evaluation of the Probability of Spinal Damage Caused by Sustained Cyclic Compression Loading, *Jaap H. van Dieën and Huub M. Toussaint* 469
Effects of Team Size on Maximum Weight Bar Lifting Strength of Military Personnel, *Marilyn A. Sharp, Valerie J. Rice, Bradley C. Nindl, and Tania L. Williamson* 481
The Effect of Valve Handwheel Type, Operating Plane, and Grasping Posture on Peak Torque Strength of Young Men and Women, *Yuh-Chuan Shih, Mao-Jiun J. Wang, and Chih-Hong Chang* 489
A Dynamic Mechanical Model for Hand Force in Right Angle Nutrunner Operation, *Seoungyeon A. Oh, Robert G. Radwin, and Frank J. Fronczak* 497
Continuous Concurrent Feedback Degrades Skill Learning: Implications for Training and Simulation, *Richard A. Schmidt and Gabriele Wulf* 509
Transfer of Spatial Information from a Virtual to a Real Environment, *Paul N. Wilson, Nigel Foreman, and Michael Tlauka* 526
Interference and Information Organization in Keeping Track of Continually Changing Information, *Michael Venturino* 532

Cognitive Ability Determinants of Elite Pilot Performance, *David O'Hare* 540
Team Play with a Powerful and Independent Agent: Operational Experiences and Automation Surprises on the Airbus A-320, *Nadine B. Sarter and David D. Woods* 553
The Effects of Correlation and Response Bias in Alerted Monitor Displays, *Greg C. Elvers and Paul ElRif* 570
Superimposition, Symbology, Visual Attention, and the Head-Up Display, *Robin Martin-Emerson and Christopher D. Wickens* 581
Spatial Discrimination in Three-Dimensional Displays as a Function of Computer Graphics Eyepoint Elevation and Stereoscopic Viewing, *Claudia Hendrix and Woodrow Barfield* 602
Image Quality of Two-Primary Color Active-Matrix Liquid-Crystal Displays, *David L. Post and William F. Reinhart* 618
Binocular Rivalry as an Aid in Visual Inspection, *Sudip Mazumder, Colin G. Drury, and Martin G. Helander* 642
Accuracy of Pointing a Binaural Listening Array, *Tomasz R. Letowski, Gilbert L. Ricard, Joel T. Kalb, Timothy J. Mermagen, and Kristen M. Amrein* 651
Task Effects on Three-Dimensional Dynamic Postures during Seated Reaching Movements: An Investigative Scheme and Illustration, *Xudong Zhang and Don B. Chaffin* 659

SUBJECT INDEX

Abilities 540
Accommodation 382
Adaptation 48
Advance brake warning 296
Advanced Traveler Information System (ATIS) 164, 177
Affect 425
Aging 445
Alcohol 1
Altitude 102
AMLCD 618
Analog displays 417
Aniso-accommodation 382
Aperture ratio 618
Aptitude 410
Arousal 410
Attention 303, 374
Attentional tunneling 374
Audio messages 200
Auditory
  displays 651
